### SUMMARY :-

Computer Science graduate with experience in data analytics and software development. Proven track record of improving data processing efficiency by 30% and developing machine learning models with 85% accuracy. Seeking a Data Analyst or Junior Developer position.

### EDUCATION :-

**Bachelor of Science in Computer Science** | CGPA: 6.97

Bangalore University, Bengaluru, Karnataka — *September 2021 - August 2024*

- **Awards:** Technical Skill Development Scholarship, Project Recognition Award
- **Relevant Coursework:** Object-Oriented Programming, Data Analysis using Python, Cloud Architecture Design

### INTERNSHIP EXPERIENCE :-

**Data Science Intern — Unified Mentor Private Limited | Remote — *October 2024 - January 2025***

**Technologies:** Python, Flask, SQL, Pandas, NumPy, scikit-learn, Matplotlib, Seaborn, Power BI

- Analyzed 50,000+ data points using Python (Pandas, NumPy), reducing processing time by 30%
- Built machine learning models using scikit-learn with 85% accuracy in customer behavior prediction
- Created interactive dashboards using Matplotlib and Seaborn to deliver actionable business insights
- Collaborated with cross-functional teams to implement data-driven solutions

**Python Programming Intern — VaultOfCodes | Remote — *May 2023 - June 2023***

**Technologies:** Python, Django, SQL, Pandas, NumPy

- Developed automation scripts reducing data processing time by 30%
- Processed large datasets using Pandas and NumPy for faster insights
- Optimized existing code for faster execution of complex data analysis tasks

### PROJECTS & LEADERSHIP :-

**Google Cloud x MLB Hackathon (Building with Gemini Models) Technologies:** Python, Google Cloud (BigQuery, Vertex AI), Gemini AI

- Developing an AI-driven baseball analytics tool using Google Cloud & Gemini AI
- Working with BigQuery and Vertex AI to process and analyze sports data

**Self-initiated Data Science & Full-Stack Projects Technologies:** Python (Flask, Django), React.js, Matplotlib, Seaborn, Power BI

- Led automation projects using Python for backend and React.js for frontend
- Developed predictive models and data dashboards using visualization tools

### **SKILLS :-**

**Programming:** Python (Advanced), Java, JavaScript, C++ (Basic)

**Data & Analytics:** Pandas, NumPy, Matplotlib, scikit-learn, Power BI

**Web Development:** Flask, Django, React.js (Basic)

**Cloud:** AWS (Elastic Beanstalk), Google Cloud (BigQuery)

**Languages:** English & Telugu (Fluent), Kannada (Conversational)

### **PROFESSIONAL DEVELOPMENT :-**

- Completed virtual experience programs with PwC, Deloitte, Accenture, J.P. Morgan, and AWS
- Soft Skills: Problem-solving, Team collaboration, Communication, Time management
